

Year 4 Home Learning, Week Beginning June 7th

Dear Year 4 and Parents/Carers,

Science

1. This week we continue our research into Charles Darwin and the science of Evolution, Adaptation and Inheritance. For those still working on last week's lesson, check out some examples of children's work here to help you.

<http://www.salhouseschool.co.uk/2020/06/science-evolution-inheritance-and-adaptation/>

Enjoy lessons 2a and 2b, all about inheritance and variation.

2. Anglia Water Lesson 5 – Too Much Water!!!

Activelearn

1. Bug Club reading. Remember to click the bug to complete the comprehension activities as you read. Well done to bookworms Niamh, Lila, Luli and Florence who are at risk of causing a national book shortage!
2. Maths games

Study Ladder

Daily Maths and English practice.

Spellings

Week 27 from the Nelson Spelling programme.

Mrs Church's Challenges

Mrs Church has set you the challenge of throwing a ball in the air, lying down and then getting up again in time to catch it. <http://www.salhouseschool.co.uk/welcome/>

- a) Can you do it?!
- b) Try Mr Leaver's challenge: throw a ball in the air and count how many punches you can throw before you catch it.
- c) Can you make up a physical challenge like this to share with the class?

Have a good week everyone! Mr Leaver
