Year 4 Home Learning

Week Beginning 6.7.20

Music – Chrome Music Lab

Experiment with Chrome Music Lab. https://musiclab.chromeexperiments.com/

1. Try out the different experiments – Song Maker, Rhythm, Chords, Harmonics, etc.
2. Compose your own songs. On "Song Maker" you can save your music both as a web link and a sound file. Send me your work so we can share it on the website.
3. Your task is to make one short composition each day. Try some of these challenges!

Hypnosis	Get Up and Dance!
Make a hypnotic song. Can you put your listeners into a trance? How do I know it's good? People get sleeeeeepy when they hear it!	Make a song to dance to. How do I know it's good? The whole household immediately gets disco fever.
Same But Different Make a song and save it. Then change one of the instruments. How does it change your song? Save your second version. How do I know it's good? You can *describe* the difference. Think of the mood of the song: is it cheerful, epic, anxious, spaced out? How about when you change the instrument?	Theme Song Make your own theme song. All superheroes need a theme song... so isn't it about time you had one?! How do I know it's good? You feel your superpowers charging up when you hear it.
Familiar Tune Make a song with a tune we all know. How do I know it's good? People can guess what it is! Nursery rhymes are a great place to start because they are simple and everyone knows them!	Heartbreaker Make a piece of music that is beautiful and sad. Choose instruments carefully for this one! How do I know it's good? People start bawling their eyes out.

Video Soundtrack

In English this week you are watching five videos. Choose one and make a soundtrack for it. You could even try using a video editor to put the video and music together. Here is the Wingsuit video with my soundtrack:
https://www.youtube.com/watch?v=Rv9yVliwMII

<u>How do I know it's good?</u>
Your music goes well with the video.

The Room Clearer

What is the most obnoxious, irritating piece of music you can make?

<u>How do I know it's good?</u>
Everyone leaves the room. You can't stop cackling evilly.

<u>Reflection</u>
Can you explain what makes the music irritating?

Remix

Take my Wingsuit song and make changes to it.
https://musiclab.chromeexperiments.com/Song-Maker/song/5205975146430464
Here is my remix which uses violins instead of keyboard and changes the drum pattern a little bit.
https://musiclab.chromeexperiments.com/Song-Maker/song/5348863071223808

You could change:

- Tempo (the speed of the song)
- Melody (the tune)
- Chords (at the end there is a three-note chord – can you find it?)
- Mood (the feeling of the song)
- Rhythm (change the drum beat)
- Other Settings (click "Settings" and explore!)

You could send in links to your songs so we can all remix yours!

Live Music

Compose your own piece of music using any instruments you have at home. (Don't forget the instrument you have been playing since the moment you were born – your voice!)

Word Music

Choose a word and make it in musical form. Here are some words to get you started: Water, Explosion, Sugar, Rabbit, Hunt, Sun

Spellings – Week 31 – Revision

Writing - Slow Writing (see separate sheet).

Reading

Keep reading the Bug Club books that have been set for you and answering the comprehension questions.

Study Ladder

Daily grammar and Maths practice.

Zoom Meeting

Our meeting will be on Wednesday afternoon this week if you want to go through the week's work and catch up with everyone.

See you on Wednesday!

Mr Leaver
