

Bitterns Parent Plan - Funny Bones - Autumn 2020

Home Learning – I would like for all the children to read regularly at home. Spellings will also be sent out for the children to learn on a weekly basis.

As historians we will be looking at significant nurses from the past. We will be focusing on learning about the lives of Florence Nightingale, Mary Seacole and Edith Cavell. We will also be comparing and contrasting medical care in modern times with that of the past, looking at the creation of the National Health Service.

As mathematicians we will be developing our ability to count to and order numbers up to twenty. We will learn about estimation and simple addition and subtraction. We will also begin to learn number bonds to ten.

Bittern's authors will focus on learning to write sentences, using capital letters, full stops and finger spaces. We will continue to practice forming the correct letter shapes and developing our handwriting in a cursive style.

As scientists we will be looking at the human body. We will learn the body parts and how to maintain a healthy body and lifestyle. We will also be focusing on our teeth. Another focus will be personal hygiene, particularly the importance of handwashing.

As artists we will create a moving skeleton. We will also be exploring with printing, using both black and white to create effects.

In RE Bitterns will be learning about the Christian creation story. We will also be looking at festivals, focusing on Diwali, Hanukkah and Christmas.

As geographers we will be exploring aerial maps, looking at their purpose and how they are used. We will have the chance to create our own map using symbols and a key. We will also learn to use directions and about positional language.

This term our whole school core values, which underpin all our learning, are **responsibility** and **respect**.
