

Digital Artwork by Grebes

Using Microsoft Paint 3D we have been learning to create 3D objects and backgrounds. Here is a selection of the our first experiments. Some of the characters are from the comic books we are working on.

How many dogs are there?

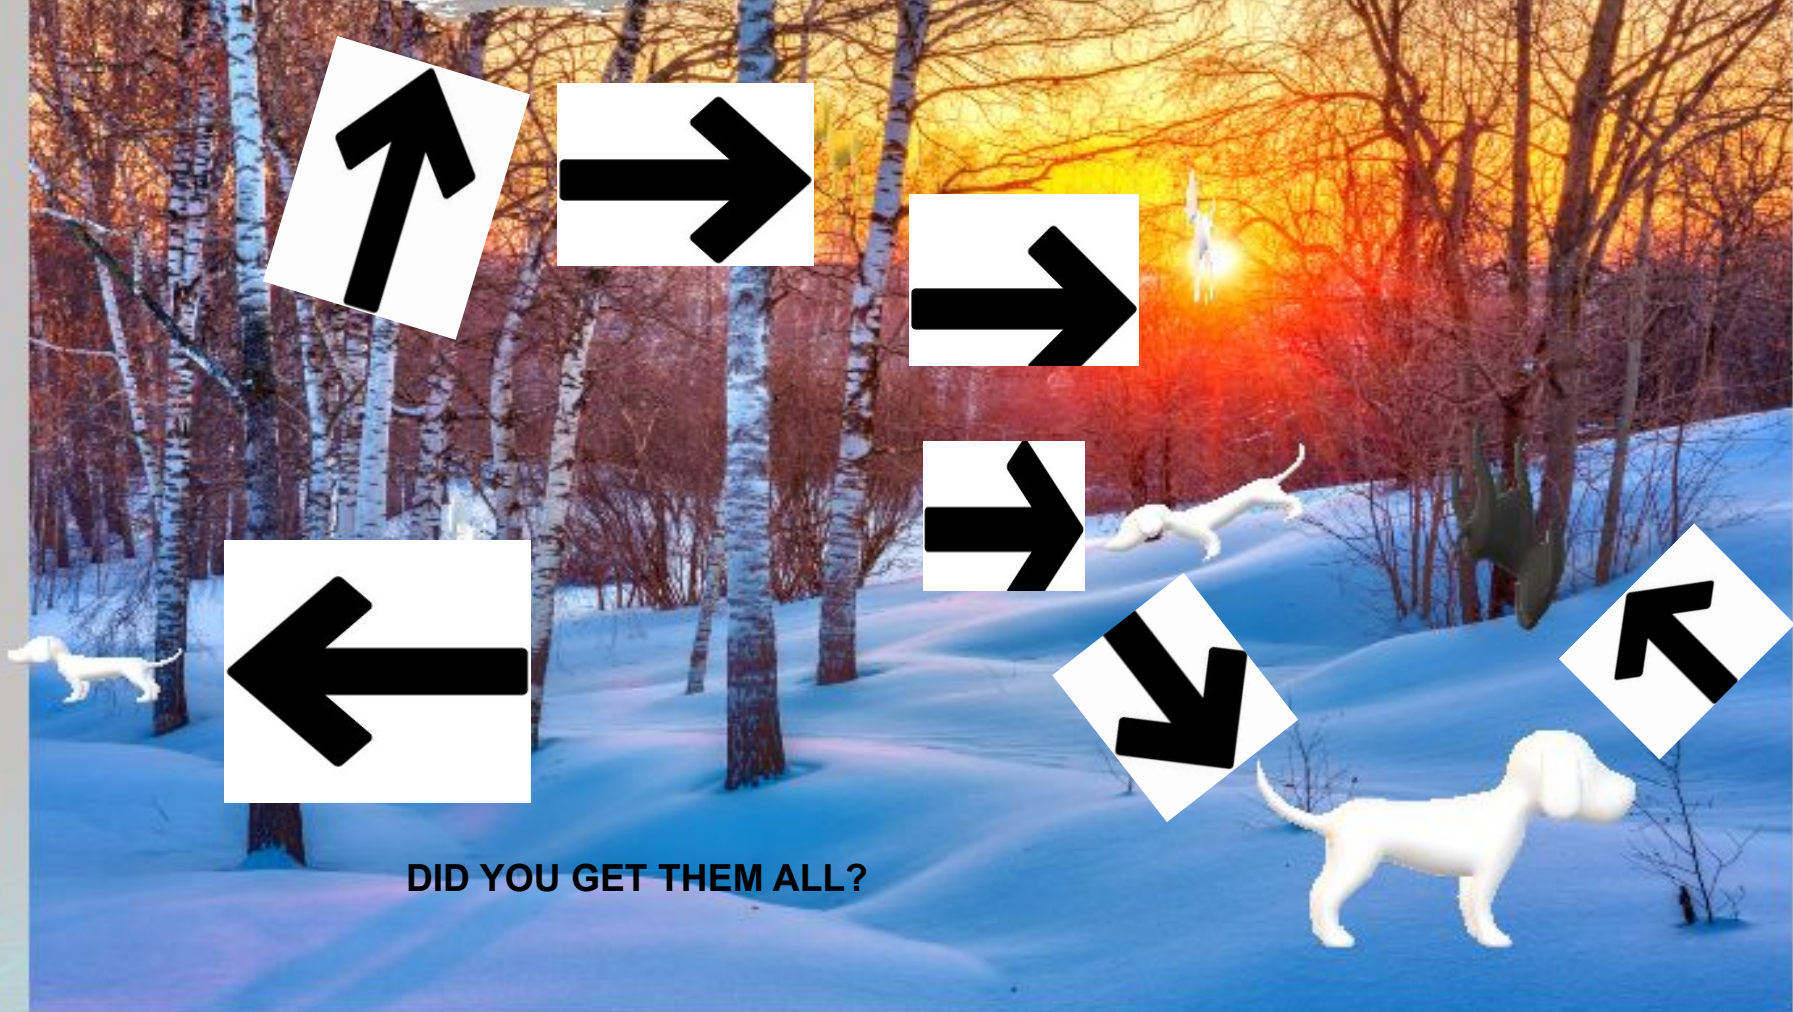

!

Spoiler alert

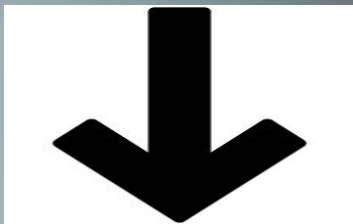

**ROTATING THE
CANVAS
GIVES YOU A
BETTER VIEW
OF HOW MANY
DOGS THERE
ARE!**

DID YOU GET THEM ALL?

Ha, there's one behind the screen!

1/8 your bad
3/8 quite bad

6/8 good!

7/8 excellent

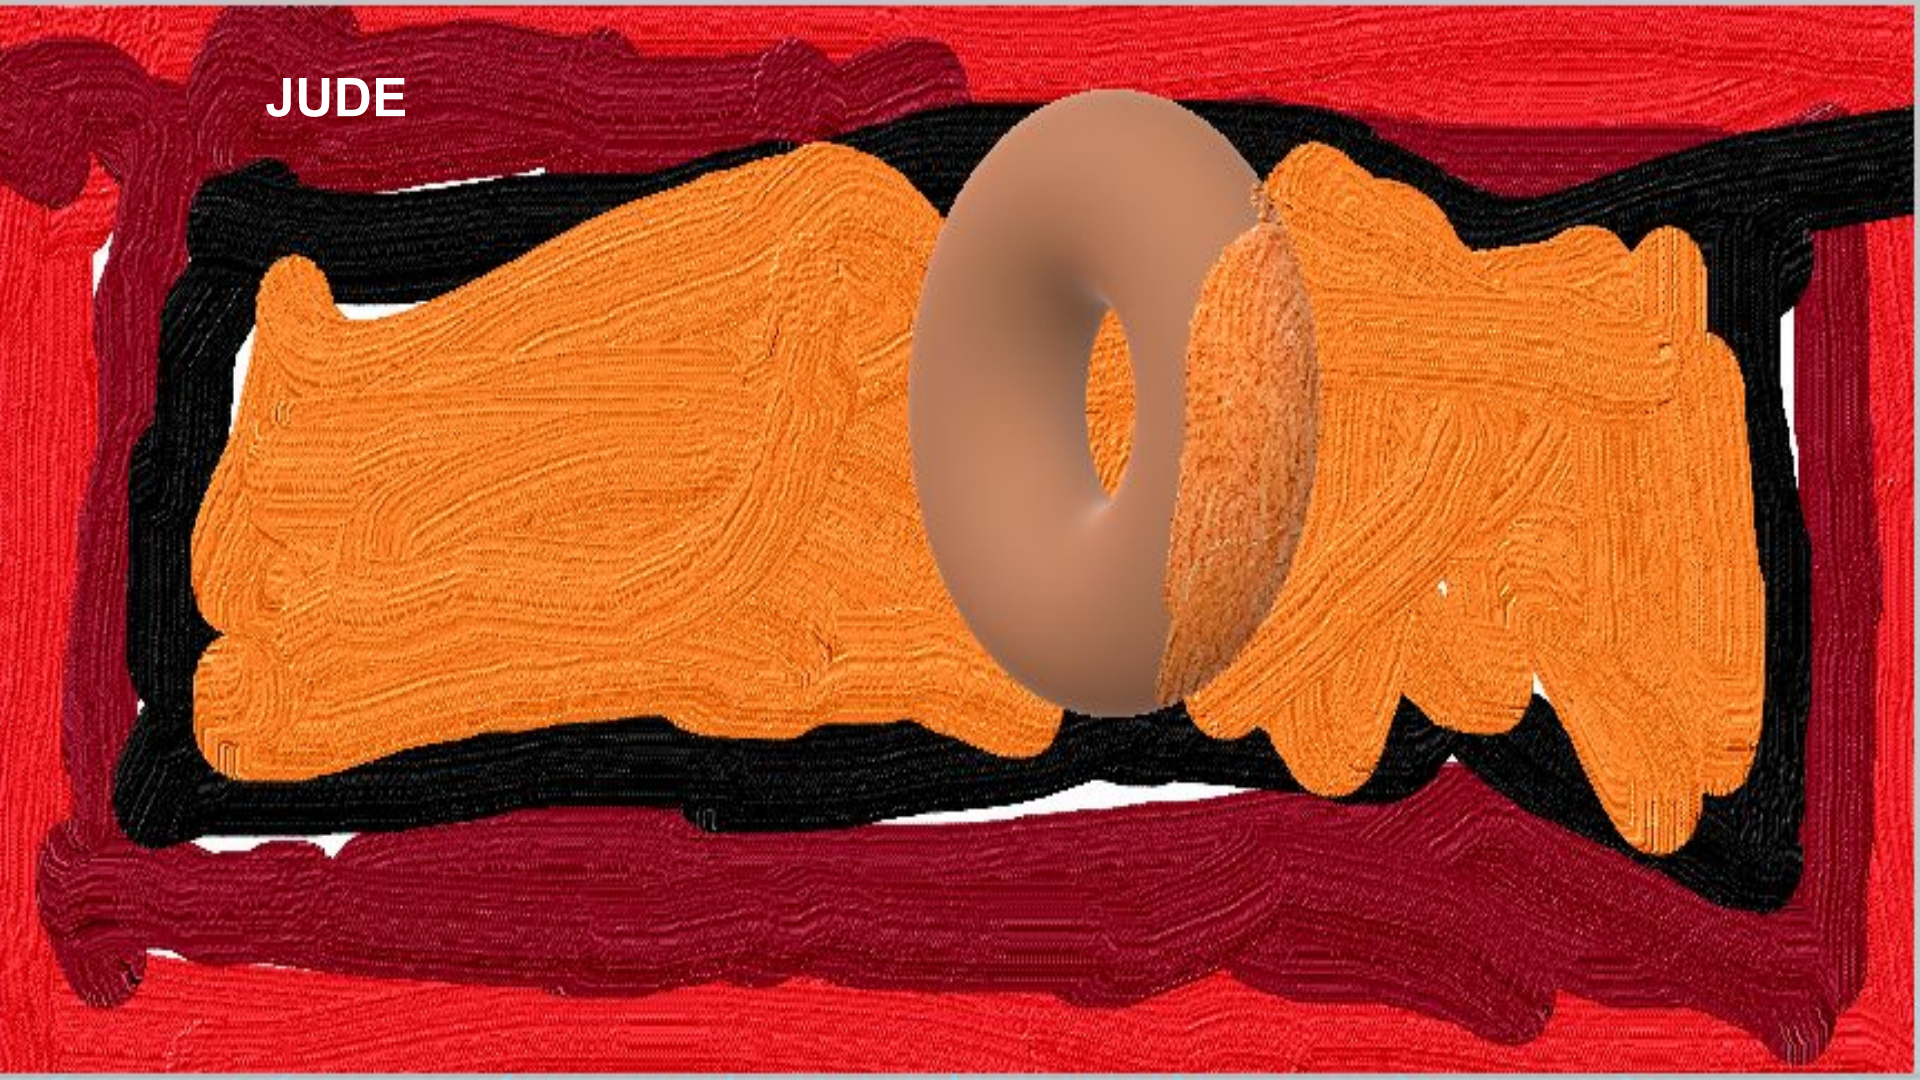

8/8 hacker

BEN

SADIE

I decided to make a cat army because I love cats and I like armies, especially cat armies. I think the rainbow effect gives it a bit of fun.

The green on the left furthest is called Lime and the cat next to it is called Nova.

This my family: the person on the left is me (Sadie), next to me is my mum (zoe), and she is next to my dad (James) and finally my big brother Tor.

Once you have your character saved as a 3D image, you can copy and paste it anywhere...

Argh! Broccoli man is in a blizzard!

Gah! He's in a volcano!

Ugh! He's tumbling down, down, DOWN...

Yikes, he's on a dinner plate...And here's Whale Girl.

And she's just gone vegetarian.

The background is a vibrant, abstract 3D marbled pattern. It features swirling, wavy lines of color that create a sense of depth and movement. The color palette is diverse, including deep blues, bright yellows, fiery oranges, and rich reds, all intermingled in a complex, organic fashion.
