Flourishing Families Tool

Flourishing Families has been designed by the local authority for families who might want a little extra help meeting their child's needs.

"We know that parenting can sometimes feel overwhelming but we all share the common goal to give children the best start in life. There are all sorts of things that you can get help with, whether it's healthy eating, fun activities or financial support, and this tool was developed to help you work out what you're already doing well and help you find support when and if you need it."

The website includes answering some questions about your family and the results include advice and guidance based on your score. **The answers you choose are anonymous and will not be shared with anyone.**
